The Bible Verse Desktop (BVSD) is a free application which displays short religious verses on your desktop. You can configure the application to give you precise information about the current chapter you are reading. You can also set the Bible verses in many languages, display them on a particular area of your desktop and change the background color of the area. With BVSD you can set the Bible verses and background color to your computer at a particular time. You can also set the application to give you multiple verses, including the opening verse of the chapter. You can display a number of verses and adjust the text size in the application settings screen. BVSD can display bible verses from any of the following major text sources: - The King James Bible - The Contemporary English Version - The German Bible (Katholic) - The Chinese Bible - The Russian Bible - The English Standard Version - The Huttu Bible - The New American Bible Bible Verse Desktop Comments + Free, lightweight + Easy to use + Numerous features Bible Verse Desktop Open Source Community Bible Verse Desktop Screenshots Bible Verse Desktop description Bible Verse Desktop 4.2.2 The Bible Verse Desktop is a lightweight gadget able to enhance your desktop activity by displaying Bible verses right on your screen. This utility can be moved to any area of the screen, but you cannot change its size. With a right-click on the application's window, you can access its configuration settings. The tool generates short religious verses and gives you details about the current chapter. Plus, you can skip to the next verse with just one click. Bible Verse Desktop gives users the possibility to change the language for the generated religious information (Chinese, English, French, German, Hindi, Russian, Thai, Turkish, or Ukrainian), customize the text in terms of font style and size, and apply shadow effects. Furthermore, you can make the gadget change the Bible verses at a specified time, pick the background color, and set the current verse as your wallpaper. Since you don't need special computer skills to configure the dedicated parameters, even less experienced users can master this gadget with minimum effort. During our testing we have noticed that Bible Verse Desktop displays accurate religious information. As it would be expected from such a small gadget
